

**Do you have a plan in case of  
a fire or flood?**

**Do you really need one?**

# YES!!

Insurance industry statistics say:

- Your chances of experiencing a fire are 1-in-10.
- The chances your business will suffer water damage are 1-in-7.

That's why having a game plan in case of a water or fire disaster is considered an important part of Business Continuity Planning.

*“Seldom do we find an organization that has a property restoration specialist, document restoration specialist or It restoration specialist within their talent pool and so these services need to be found in advance: this is the only way that your company can ensure that it will have priority response following an incident.”*

**Russell Greig-Bartram, Managing Director, DisasterNet Ltd.**

# Why Begal?

- Two Decades Providing Superior Service
- Rapid Response 24/7/365
- State of the Art Equipment
- Skilled and Reliable Crews
- We Know Insurance

# Who We Are

Begal Enterprises was founded in 1999 by Bill Begal. His background in the dry cleaning business instilled in him an attention to detail and high quality service that are the hallmarks of his company. Today, Begal Enterprises is a nationally recognized leader in the industry. You may have seen some of our projects in the news:

- August 2005 – We were in New Orleans hours after Hurricane Katrina made landfall. Begal crews worked to salvage a number of upscale hotels and restaurants.
- October 2005 – Soon after Hurricane Wilma made landfall in Miami Beach, Begal crews completed one of the largest board ups in history at 1221 Brickell Avenue.
- June 2006 – After the “rain of the millennium”, Begal was chosen to clean up the flooded EPA headquarters building in Washington DC. For that successful project we received the RIA’s Phoenix Award for innovation in restoration.
- September 2008 – Begal teams were in Galveston, TX after Hurricane Ike. They worked to save and restore many commercial buildings and one of the city’s oldest houses of worship.

Our regular clients include restaurants, hotels, high end department stores, and class “A” office buildings. Many of them consider us a valuable part of their disaster recovery planning, where our expertise really pays off.

# Rapid Response

When You Suffer Damage, We:

- ✓ Clean It Up Fast!
- ✓ Get Your Business Back to Normal!
- ✓ Do It At a Fair Price!
- ✓ Do It Right the First Time!

# State of the Art Equipment

# Skilled and Reliable Crews

Average Time With Us: 7+ Years

You don't pay for a learning curve

# We Know Insurance

- You choose who works on your property – not the insurance company
- Less than 1% of all the insured jobs we do result in “out of pocket”
- Apparent vs. Real Costs

# What people say about Begal . . .

“In the panic of a broken sprinkler head or a torrential summer storm flooding a building, our first call is to Begal. We have confidence that they will quickly get to the building, that they will throw the manpower at the problem, and that the issues will be analyzed and solved. In addition to their work in the field, the critical paperwork is efficient, thorough, and accurate.”

**Steven G. Shapiro, LEED AP BD&C**

# VOLT

“I would never consider anyone but Begal Enterprises to clean up fire or water damage at Volt Restaurant. Bill knows the restaurant business inside out, and his team understands the importance of responding quickly and working with great care and attention to detail.

We work hard to make Volt the ‘go to’ destination for people wanting a fine dining experience. That’s exactly what Bill Begal has done with his company: they are the ‘go to’ tool for any home or business after a disaster.

I highly recommend Begal Enterprises to my fellow restaurant owners, and to anyone else who suffers damage from fire or flooding.”

**Bryan Voltaggio, Volt Restaurant**

# MERVIS

DIAMOND IMPORTERS

“It’s a businessman’s worst nightmare. Your store is flooded and you can’t open the doors to serve your customers. Several years ago that happened in two of our locations. First it was a small flood in our Rockville store, then just five weeks later a large sewage backup closed the entire basement area of our flagship store in Tyson’s Corner.

We were lucky that we knew about Bill Begal. His hard working crew showed up quickly, knew exactly what to do, enabling us to reopen as quickly as possible.

The price was fair and the job was done right. I recommend them heartily.”

**Ronnie Mervis**

“On Tuesday February 19, 2008, a domestic hot water pipe ruptured in the hospital’s Intensive Care Unit and 2nd Floor laboratory areas of the hospital, dumping hundreds of gallons of water in a matter of a few minutes. Staff immediately began to address the crisis and summon assistance from all sources, both internal and external to the hospital. Your crew was in transit to their homes for the evening, and willingly made the sacrifice to turn around and return to the hospital to provide the emergency assistance we desperately needed. I wish to personally recognize and thank your staff for their commitment to service excellence and their extraordinary efforts in assisting us in our hour of need.

Please share with them our gratitude and pride in their commitment and efforts on our behalf. As such, the hospital would like to honor them at our Recognition and Appreciation Ceremony on Thursday, February 28 in the Hickory Room by the Main Lobby. We hope that all will be able to attend.”

**Stephen D. Jennison, Director  
Facilities Management  
Shady Grove Adventist Hospital**
